**APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.8 cubic feet per second, or 240 acre feet per annum.

Actual construction work shall begin on or before August 10, 1925.

Proof of commencement of work shall be filed before September 10, 1925.

Work must be prosecuted with reasonable diligence and be completed on or before August 10, 1925.

Proof of completion of work shall be filed before September 10, 1925.

Application of water to beneficial use shall be made on or before

August 10, 1927. Proof of the application of water to beneficial use must be filed with State Engineer on or before September 10, 1927.

*Proof of labor filed MAY 19 1925*

*Proof of completion of work filed MAY 19 1925* WITNESS MY HAND AND SEAL this 10th day

of April 1925.

*R. M. Adcock*  
State Engineer.

This permit is issued subject to all prior rights on the source, the right to water hereunder being limited to use upon land owned by the applicant. A portion of such land is already under cultivation, same being irrigated from the Truckee River through the Highland Ditch, while the balance has never been reclaimed. The right is herein granted, in addition to permitting use on new land, to use water from this source when it is available in lieu of Truckee River water on land already cultivated, thereby reducing the seasonal delivery charge through the Highland Ditch. However, the proof of beneficial use and cultural map, when filed, must show a segregation of the areas already under cultivation from the Truckee River and upon which water from this source has been used from such parcels of land as may be reclaimed under this permit. A substantial headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of such water at any and all times.
